

Point-of-Sale

Complete, integrated pharmacy point-of-sale system.

Complete with scanner and signature-capture equipment, touchscreen-enabled point-of-sale (POS) works with QS/1's pharmacy management software to provide a storewide solution. Community, outpatient, clinic, small chain, and combo pharmacies can all use our POS system.

Key Features:

Seamless Integration

Take advantage of a single vendor for seamless data sharing and automatic updates to pharmacy workflow.

Secure and Compliant

Minimize risk with a POS system that's SIGIS certified, IIAS compliant, adjudicates FSA/HRA-eligible items, automates PMP reporting, and can include PA-DSS compliance.

Effective Inventory Management

Establish automatic reorder levels to reduce inventory investment and maintain proper levels. Identify fast- or slow-moving inventory and high-volume trends to capitalize on supplier discounts.

Flexible Checkout

Use electronic signature capture via wireless tablets for in-store and drive-thru customers. Add Remote Checkout® for wireless transactions at curbside, bedside, or doorstep.

Additional Features:

- Handles payments via credit and debit cards (including cash back), in-store charge accounts, and checks
- Enables single signature capture for prescriptions, payments, FSA, HME, and PSE log
- Supports two-drawer operation
- Integrates with prescription will-call system
- Alerts cashiers about other prescriptions ready for pickup
- Can suspend a transaction while completing others
- Quickly adds new inventory items

Benefits:

- Shorten lines and deliver meds with portable checkout capabilities and mobile apps.
- Better manage pricing with a variety of formulas, and receive wholesaler electronic price updates.
- Tighten inventory management with automatic reordering, purchase orders, and acknowledgments.
- Build loyalty with store accounts, gift cards, and rewards programs – across multiple stores.
- Generate centralized reports, including credit-card analysis, department sales, and drawer balancing.
